

### ADVANTAGES

- Fine fiber ensures filter will maintain particle capture efficiency throughout its service life.
- Available in MERV 13A, 14A and 16A.
- Rated 5-Star product when evaluated per Energy Cost Index (ECI) for superior performance, energy and sustainability when considered against other industry products of similar construction.
- Longest lasting high efficiency filter.
- Lowest Life Cycle Cost (LCC) filter available.

<b>Application</b>	Built-up filter banks, rooftops, split systems, free standing units, packaged systems and air handlers.
<b>Frame</b>	Plastic;ABS
<b>Gasket</b>	Flat gasket
<b>Media</b>	Glass fiber
<b>Sealant</b>	Polyurethane
<b>Recommended final pressure drop</b>	2x Initial pressure drop
<b>Max. final pressure drop</b>	1.5" w.g.
<b>Installation Options</b>	Clips required to hold 2-inch prefilter to face are C-84-2. To hold 4-inch prefilter use C-84-4.
<b>Comment</b>	Ratings: ECI value of Five Stars, UL Class 900
